## Who Are We?

SCNTERTAINMENT is an independent initiative launched by recording artist and actor Scotty Newlands as a way to further legitimize his foothold in the performance industry. Over the years, Scotty has had the privilege of working with a great number of corporate groups, organizations, clubs and private venues and has amassed a wide network of performance resources. Due to his background in the industry, he decided to "open up the floor" as it were - to other musicians, variety acts and performance artists who may be looking for opportunities - but may not have the connections to reach out to a wider audience.

## What do we do?

SCNTERTAINMENT specializes in providing customized performance entertainment and ceremonial services to corporate and private clientele in a professional and courteous manner. Some of our services include:
